

## Defined Benefit Small Self-Administered Scheme

### A Product Overview

Carey Pensions UK are proud to include a defined benefit ‘DB SSAS’ among our range of occupational pension vehicles. Our DB SSAS is one of only a handful of comparable schemes and unlike a common ‘money purchase’ scheme, it offers a defined level of scheme pension for members at the scheme’s normal pension age.

The scheme is designed for employers who want to maximise the provision of pension benefits for directors and other key employees in a given year.
